

ASPRunner Professional - Web Developer's Nirvana

 ASPRunner Pro 3.1 Nov 8, 2004

ASPRunner Pro creates a **set of ASP pages** to access and modify **Oracle, SQL Server, MS Access, DB2, MySQL, FileMaker, Excel**, or any other ODBC datasource. Using generated ASP pages, users can search, edit, delete and add data into database. ASPRunner Pro generates robust, easy to modify code.

much praise from me means to you. All I can tell you is that it is wonderful to find software that is easy to use and works so well.

Ian Roller
Ireland

What I needed to do was build a members log in area for a web site that the user could update as new people joined. He wanted this done in two days. With not much time I downloaded this software and had the lot done in under 3 min. Normal time for this would be
