OFFICE OF
WORKERS' COMPENSATION JUDGE
HELENA, MONTANA

Dear Sir's

Re: WCCC No 2000-0222 dated May 4th 2005.

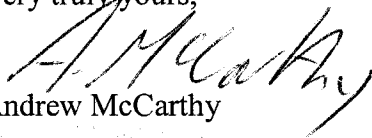

I write to advise that Transport INS Co was sold to Cavell America Holdings in December 2004, as a result of this sale all books and records have been transferred to our care. We are obviously in receipt of the court summons and are working with our appointed third party workers compensation service provider to supply the required data.

I am sure you can appreciate that the request for data relating to cases in Montana dating back to 1974 will spread across a number of systems and in turn will take us some time to provide all that is necessary. I can advise that at present our systems shows eight cases in Montana with two of them being closed recently.

We are working with our IT department to produce a report that will provide the data requested for all cases reported dating back to 1974, as soon as this data is available I will forward onto you immediately.

In the meantime should you have any questions please do not hesitate to contact me.

Very truly yours,

Andrew McCarthy
